

RELEASE NOTES DIGEST 11.2

GENERAL ENHANCEMENTS

Reviewer Selection Summary Page Enhancements	<p>Improved Convenience for Reviewer Selection Summary Page User Interface improvements. Plus Customized Reviewer Instructions may be added, and Reviewer Search Options and criteria may be restricted, in Editor <i>RoleManager</i>.</p> <p>How configured: In RoleManager Time to configure: About 10 minutes</p>
Enhanced Transmittal Status Visibility	<p>Easily see statuses and timestamps of Transmittals A new 'Unsent, Pending or Failed Transmittals' folder is added to the Editor Main Menu and allows Editors to efficiently track Transmittals in one location.</p> <p>How configured: No configuration necessary if transmittals are used</p>
Re-Release Transmittal After Final Disposition: Editor Roles	<p>Editors can re-release a Transmittal after a Final Disposition of Accept A new permission is added to allow Editors to re-release Transmittals from the <i>Transmittal Form</i> page.</p> <p>How configured: In Editor RoleManager Time to configure: About 5 minutes</p>
Attach Files Summary Enhancement	<p>User interface improvements to Attach Files Summary Enhancements quickly indicate missing items, offline submissions, repeated information is consolidated, and the order of messages is more intuitively arranged.</p> <p>How configured: No configuration necessary</p>
Add/Edit/Remove Authors Display Enhancement	<p>The Add/Edit/Remove Authors submission step is enhanced for more intuitive experience Familiar icons such as a pencil to indicate 'edit', and a trash can to indicate 'delete' are part of this UI improvement.</p> <p>How configured: No configuration necessary</p>
Questionnaire Policies	<p>Improved usability for Custom Questions configuration A new section in PolicyManager, 'Questionnaire Policies', now contains the links associated with Custom Question configuration. The functionality of the links remains the same.</p> <p>How configured: No configuration necessary</p>
Custom Questions Included in Editorial Transmittal	<p>Easier administration of Custom Questions in Transmittals A new checkbox has been added in the 'Integration Options' section of the 'Add/Edit Custom Questions' page.</p> <p>How configured: No configuration necessary</p>

<p>Enhanced Questionnaire Responses Display</p>	<p>New, streamlined format for Questionnaire Responses Lengthy questions are displayed with '(more...)' links to expand or '(less...)' links to collapse. Responses are always displayed in full. Also, new display for multi-part questions.</p> <p>How configured: No configuration necessary</p>
<p>Enhanced ORCID iD Authentication for Authors and Co-Authors</p>	<p>Increase ORCID use and authentication Two new Article Type configurations are introduced to prompt Authors of a submission to associate their ORCID iD with their EM user accounts.</p> <p>How configured: In PolicyManager Time to configure: Approximately 5 minutes</p>
<p>Restrict Ad Hoc Letters to Specific Editor Roles</p>	<p>Increase control of ad hoc letters Limit the ad hoc letters available to each Editor Role in the letter template.</p> <p>How configured: In PolicyManager Time to configure: Approximately 5 minutes</p>
<p>Custom Metadata ID for Transferring Submission Questions</p>	<p>Improved functionality for transferring Custom Questions Custom Metadata ID may be used to match Custom Submission Questions in an EM-to-EM Transfer. For instance, publications might have slightly different wording of a Copyright Transfer or Disclaimer, but the overall intent of the question is the same.</p> <p>How configured: No configuration necessary</p>
<p>PRE</p>	<p>Add PRE to your manuscript ratings data Trigger an XML export on Acceptance of a submission to be used for calculating the Peer Review Evaluation (PRE).</p> <p>How configured: Contact your Account Coordinator</p>

PRODUCTION MANAGER ENHANCEMENTS

Production Task Questionnaires	<p>Now add questionnaires to Production Tasks Administrators may select a Questionnaire that will be shown when the assignee submits a Production Task.</p> <p>How configured: In PolicyManager Time to configure: Approximately 5 minutes</p>
Custom Production Flags	<p>Visual cues specifically for ProduXion Manager ProduXion Manager users have access to 500 new flag icons (in addition to the existing 968) that may be configured specifically for Submissions in Production.</p> <p>How configured: No configuration necessary</p>
Automatically End Production upon Task Completion	<p>Easily end Production ProduXion Manager users may elect to automatically end production when a Submission Production Task has been completed</p> <p>How configured: In PolicyManager Time to configure: Approximately 5 minutes</p>
Merge Field for Production Questionnaire Responses	<p>Include Questionnaire Responses in Production Letters A new merge field is available for use in the 'Submit Task' letter associated with a Submission Production Task</p> <p>How configured: No configuration necessary</p>

REPORTING ENHANCEMENTS

Cross-Publication Enterprise Analytics Reporting: Publication Groups	<p>Create sub-groups in Cross-Publication Reporting Manage and assign Publication Groups, as well as restrict Editor Roles, to access only certain Publication Groups when running Cross-Publication EAR.</p> <p>Time to configure: Approximately 15 minutes</p>
Production Task Questionnaire View	<p>New View added in Custom Reports and EAR. The new view displays information about Production Task Questionnaires (added in v11.2).</p> <p>How configured: No additional configuration necessary</p>
