Editorial Manager®

ProduXion Manager®

Accessibility Enhancements to Author Pages and Submission Process

User role impact: AUTHOR, EDITOR

To support our goal of making the system accessible for all users, Aries will be introducing a series of changes throughout Editorial Manager and ProduXion Manager. Aries will continue to follow industry best practices such as the Web Content Accessibility Guidelines (WCAG) and work with users to improve the accessibility of Editorial Manager and ProduXion Manager.

These improvements apply to Author action links for several Author folders and to error-message display in the submission process. Error messages with improved color contrast will appear during Author manuscript submission as well as when Editors enter submissions into the system via Editorial Manager and ProduXion Manager.

TO CONFIGURE:

No configuration is required.

Reporting Enhancements

PolicyManager Configurations Table Available in EAR

The PolicyManager Configurations table, currently available through General Data Export, is made available in Enterprise Analytics Reporting (EAR).

TO CONFIGURE:

No configuration is necessary. Users with reporting permissions on a publication using Enterprise Analytics Reporting will see the new table in the drop-down list of tables and views.
