# Reviewer Selection Redesign

## User role impact: EDITOR

This release introduces a redesigned Reviewer Selection Summary page with usability and accessibility enhancements and updated color scheme and font.

The search process has been simplified to reduce the number of clicks to invite Reviewers. Editors can select search options via a new tabbed format and initiate publication searches directly from the Reviewer Selection Summary page. After an Editor initiates a search, the system launches the existing results pages where the Editor completes the Reviewer selection process.

**Invite Reviewers Menu**

- Review Settings - [Edit](#)
- Required Reviews - 2
- Uninvite After - 7 days
- Unassign After - 2 days
- View Submission Information

- [Register and Select New Reviewer](#)
- [Request Unregistered Reviewer](#)
- Set Preferences
- [My Suggest Reviewer Preferences](#)
- [My Reviewer Display Preferences](#)

**At left: Review settings and search preferences now appear in the left sidebar.**

**Below: Search tool redesign:**

**1 - Search types display as tabs. Types displayed depend on role permission and publication configuration. (Additional tabs may display, such as searching other publications in a sharing group or third-party reviewer finder services.)**

**2 - Search tool initially displays with definition row; additional rows are added with the click of a button.**

**Reviewer Status grid: Sections and actions shown may require existing RoleManager permissions.**

**1 – Color-coded indicators provide quick visual aid for assignment statuses (for all Editors).**

**2 –Send reminder directly from the Reviewer Selector Summary page (for Editors with permission).**

The screenshot displays the 'Review Status' interface. It is divided into three main sections: 'Invited Reviewers (5)', 'Alternate Reviewers (1)', and 'Proposed Reviewers (2)'. The 'Invited Reviewers' section lists five reviewers with their status: Benjamin Beet (Review Complete), Michael Mountain (Agreed to Review), Bertha Beach (Reviewer Invited), Fran P Forest (Linked Alternate), and Oliver Ocean (Reviewer Declined). A green box highlights the status indicators for Michael Mountain, Bertha Beach, and Oliver Ocean, with a '1' next to it. To the right, buttons for 'Send Reminder' and 'Unassign Reviewer' are visible, with a '2' next to them. The 'Proposed Reviewers' section is a table with columns for Name, Proposed By, Date Proposed, Notes, and Display Proposed Reviewer Flag. It lists Gloria Glacier and Laura Lake, both proposed by 'mary mary' on 27 Jan 2023. The interface includes various icons for actions like 'Reinvite Reviewer', 'Uninvite Reviewer', and 'View'.

**Reviewer Reminder pop-up window: An Editor can select and send reminder letters directly from the Reviewer Selection Summary page.**

The screenshot shows a 'Remind Reviewer' pop-up window. The title is 'Remind Reviewer' and the instruction is 'Select and send a Reviewer reminder letter.' Below this is a table with two columns: 'Name' and 'Letter'. The first row shows 'reviewer1 (Reviewer)' and 'Reviewer - First Late Reminder'. There is a 'Customize Letter' link next to the letter. At the bottom of the window are 'Cancel' and 'Send Reminder' buttons. The background shows a blurred view of the Reviewer Selection Summary page with a 'Send Reminder' button visible.

## TO CONFIGURE:

No configuration needed. The redesigned Reviewer Selection Summary page will become a requisite feature for all publication sites with the February 2023 release.
